Memo from
JOSHUA LEDERBERG

To: Alex Keynan

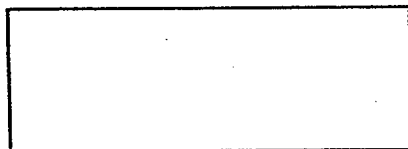

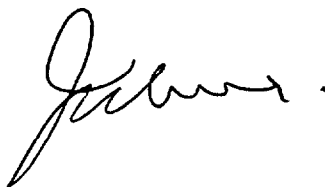

Dear Alex--

While I was visiting at the H.U. Library, I noticed a collection of autographed volumes, including Les Prix Nobel.

It would flatter me to be able to enter my own contribution along these lines; and I have therefore sent an incrimed copy of LPN 1958 for this purpose.

The inscription is from Inferno (26) which goes "Considerate la vostra semenza....." which I hope you will understand as helping to justify the acceptance of this gift.

Sincerely,

PROFESSOR JOSHUA LEDERBERG
